HARRY NEW WINS HANDICAP.

ST. TAMMANY GETS A BAD RIDE AND IS BEATEN BY A HEAD.

Heating Machine Dries Out a Portion of the Track-Robertson Supplants Odom and Scores With Glennevis-Three

Favorites Pinish in Front Entries. NEW ORLEANS, Feb. 9 .- A poor ride by Davisson cost the backers of St. Tammany in the mile handicap, a lot of money. St Taminany was played down from even money to 7 to 10. He raced to the front in the first quarter. At the head of the stretch Davisson swung wide and lost a lot of ground. In the run home Davisson put up a very weak exhi-bition and was beaten a head on the post

by Harry New.

Jockey George Odom was engaged to ride Glennevis in the fifth, but was six pounds over weight. Robertson took his place and put up a good ride. After letting Silver Fringe and Right and True race in front until still the reserve wards of the wire Robertson. within twenty yards of the wire Robertson shot out of the bunch and won by a short neck on the post from Right and True.

neck on the post from Right and True.

The Crescent City Jockey Club tried a heating machine to dry up the track, and judging by the trial it may be successful. Only a small portion of the track was operated on, and upon examination the ground was as hard as a section of asphalt and horsemen

on, and upon examination the ground was as hard as a section of asphalt and horsemen here all agreed that it would make a great improvement. The club intends to work section by section of the course so as to not ruin it. J. J. Ogles claimed Free Pass out of the third race and then sold her to Dick Vestal for \$805. which was an advance of \$100. The track was in a little better shape to-day than on Saturday. A large crowd was out and the talent managed to select the correct ones in three out of the six races. Sir Kingston was a slight favorite over Four Leaf C in the opening race. Eliza Dillon, a 7 to 1 shot, won, after a terrific drive all down the stretch, from Denny Duffy.

Arachie was played down from even money to 7 to 10 in the second. She was well rated by Fuller and won going away by half a length from Breaker.

In the third, Free Pass and Albert Lee opened up equal choices, but under a heavy play Free Pass was backed into favoritism. Albert Lee and Limelight fought it out at the finish, the former winning by a head on the post. Chickadee was the favorite in the closing event at odds on and was heavily played. After waiting on Chanterelle until the head of the stretch Chickadee came on and won cleverly.

PREPONDERANCE OF ATHLETICS ONE-SIDED BILLIARD GAME. Not an Unmixed Evil According to President Ellet-A Rap at Football.

CAMBRIDGE, Feb. 9.—Among the depart-mental reports which form a part of the annual report of President Eliot of Harvard report on athletic sports by Prof. Ira N. Hollis, the chairman of the committee on the regulation of athletic sports. Some significance may be attached to the position of this report in the order of departmental reports, for it follows those on Harvard College and the Lawrence Scientific School and precedes the reports on the graduate school and the professional schools, thus inviting the inference that athletic sports are after all the concern chiefly of the two

undergraduate departments.
President Eliot calls attention to the interesting fact that at least 2.00 of the 3,500 students in the Cambridge departments of the university take part in some outdoor sport. He notes that changes in crease, rather than a decrease, in injuries and says that "under the existing rules the game tends to become slower and less visible in its details and therefore less interesting.

in its details and therefore less interesting."
He goes on to say:
"Moreover, the ethics of the game, which are the imperfect ethics of war, do not improve. The martial axiom—attack the enemy's weakest point-inevitably leads to the deliberate onslaught on the cripple or

enemy's weakest point—inevitably leads to the deliberate onslaught on the cripple or the convalescent in the opposing line; and the habitual violation of rules, if penalties be escaped, is regarded by many as merely amusing."

Of athletic sports in general President Ellot says that there is increasing objection to their great exaggeration. "There is now a series of competitive games which covers the entire academic year; and the distraction of large bodies of students from the proper work of the university grows more intense and continues year after year. This unreasonable exaggeration of sport and exercise has become a serious drawback also in secondary schools. Thus, many of the schools fortunately situated in the country permit their pupils to be diverted almost entirely from the study of natural history by their devotion to a series of competitive sports which covers the entire school year. In the college and the scientific school the afternoons of many students during far the greater part of the year are devoted to play, or to looking at the games which the most expert athletes are playing. The range of elective selection among the studies of the college is seriously limited, because of the desire of students, and therefore of teachers, to avoid appointments in the afternoons. Such are some of the evils which attend the prevailing exaggeration of athletic sports; but whenever the evils consequent upon this exaggeration are mentioned it should also be mentioned that the outdoor sports on the average and in the mass do more good than harm, for they promote vigorous physical development, and provide invaluable safeguards against of eminacy and vice."

GOSSIP OF THE RUNNERS. Four-Mile Race to Be Run at New Orleans Next Month.

A stake race of four miles will be run by the Louisiana Jockey Club, which annually holds a six days' meeting at New Orleans, next month. The race has been named after the club, which will add \$2,000 to a sweepstake of \$10 each with \$25 additional to start. A race at this distance has not been run at the Crescent City in twenty years and the revival is intended to recall memories of the four-mile heats which were at one time all the rage in the South. If the new race proves successful its value will be increased with the idea of attracting a better class of horses next year The only other four-mile race on the American racing calendar is the Thornton Stakes run at California. In establishing the race, the Louisiana Jockey Club will give a boom to long-distance, racing which is rapidly growing in popularity here, so much so that each of the local racing associations has made arrangements to include several affairs, of

a miracle that the boy was not killed outright.

The New Orleans stewards, who have had their hands full ever since the opening of the meeting, may refer the case of Jockey Buchanan to the Western Jockey Club for final adjustment. Buchanan was set down because his employer. Sain Hildreth, openly accused him of riding a horse contrary to orders. Buchanan is under contract to ride during the coming season in the West for M. H. Tichenor & Co. and is one of the best riders in that part of the country. If the power of the New Orleans stewards ends with the present meeting, it is believed that Buchanan will be reinstated.

JERSEY MUD BALKS AUTOISTS. Automobile Club Changes Midwinter Run From Lakewood to Philadelphia.

For fear of the red New Jersey mud the Automobile Club of America has decided to change the destination of its midwinter run to be held Feb. 21-23. Originally the objective point was Lakewood, but there are about thirty-five miles between Oldbridge and Lakewood which after a thaw are like bog, and it was deemed better not to take chances on the weather, but to make Phila-delphia the destination The run will be made there on Saturday, Feb 21, going by way of Twenty-third street ferry, Hudson County boulevard to Bergen Point, across to Staten Island, to Tottenville, then across to Perth Amboy and by the usual route through New Brunswick and Trenton to

Camden.
There will be a banquet at the Bellevue Hotel, Philadelphia, on Saturday night, and Sunday will be spent in runs about the city. The run home to New York will start Monday received.

Harkness in Paris-Madrid Race. Harry S. Harkness of this city, has cabled to Paris his entry for the Paris -Madrid Automobile race, of Sunday, May 14 He is the third American automobilist to enter, the others being W. K. Vanderbilt, Jr., and D. Wolf Bishon, Mr. Harkness made his first wolf Bishop. Mr. Harkness made his first appearance as a racing man at the Brighton Beach track last September, when he drove a forty-horse-power M reedes to victory. Now he is one of the candidates for the International Trophy team and is having a racing car built after designs of his own.

FOSS'S THIRD VICTORY IN HAN-OVER TOURNEY.

He Runs Away From His Opponent, Arthur Townsend, Winning by a Score of \$00 to 98—Also Makes Another Big Average, the Figures Being 17 11-17.

The 14-inch balk-line amateur billiard ournament of the N. A. A. B. was resumed resterday afternoon at the Hanover Club. Brooklyn, with a game between Wilson P. Foss and Arthur Townsend. Foss scored his third victory of the competition. He won by a score of 300 to 93, and incidentally played more fine billiards. He made the big average

of 17 11-17. The game had not progressed far before was evident that Foss was again in the flue form that characterized his two previous games. He started out with an accumulation of 24 the first time up and his manipula-tion of cue and globes was smooth and friction-less from the opening click he drew from the ivories. His gait was so fast, reliable and steady that Townsend was little more than a passive participant in the game. Not until the sixth inning did Townsend hold the spheres in check for a double figure assort-ment. In the same length of time Foss had

rushed through the first century and was 25 points beyond that mark. rushed through the first century and was 25 points beyond that mark.

Nothing in the way of particularly soft snaps fell to Foss's lot, but on the other hand his potent skill rather than luck was the rudder that guided the craft of victory over the sea of caroms. He displayed considerable of that artistic finesse in landing on the object balls. sometimes with pats from the cue of gauzy lightness, sometimes with short drives to the rail, and yet with little of the extremely close play with which some experts are wont to subdue the balls. The latter style of play does not appeal to Foss. He thinks he can execute better and that more can be done in controlling the balls by playing them comparatively wide.

The most fruitful single session of the afternoon came in the twelfth inning, and the profits of the solourn were 82 points. Foss beating his own record run of the present tournament by 2 points. There was no elaborate touring to the various confines of the table in unravelling this lengthy string; on the other hand, the balls were for the time ivory keys, from which Foss extracted music that was low, but clearly defined, and of rapid tempo.

The score at this time was 239 to 43 in favor of Foss and it looked as if he would break his own record average of 18 12-16. He missed it by only two innings.

"I ought to have averaged 20," he said after the game.

There was some safety play by both men, and the balls lined up on Townsend several times. One foul—by Foss on the cue ball—was made.

The evening game was between Edward Gardner and Dr. L. Mial. The latter at one time led by over a hundred points, but Gardner rallied strongly toward the last, and the score after thirty innings was: Mial. 254 Gardner, 224.

Gardner won by a score of 300 to 207. The high runs were: Gardner, 42; Mial. 57, and the averages: Gardner, 727-30; Mial. 7 24-39.

This afternoon Gardner will play Townsend and to-night Foss will meet Sterk.

The third race will be in August before the International races are sailed. The course will be from Sea Gate to and around Nantucket Shoals Lightship, then to and around the Northeast End Lightship, off Cape May, and then to Sea Gate, a distance of 522 miles.

The date of the annual regatta has been left with H J. Gielow, the chairman of the regatta committee. It will probably be on Tuesday, June 9, which is two days before the New York Yach! Club regatta. Instead of an annual cruise a race will be held in August at the club anchorage. Races will be arranged for every day, and the third ocean race will be started early in the week. This week will be before the International races, and it is expected that a large fleet of boats will be on hand.

The by-laws were amended, making the annual dues \$50 instead of \$40, and these dues are payable in February instead of in two half-yearly installments.

President Russell Appoints the M. G. A. Handleap Committee.

In view of the great amount of work be done by the Handicap Committee of the Metropolitan Golf Association this year, for. besides bringing out the semi-annual general handicap, the club secretaries have to be nstructed in regard to the new system of handicapping their members on the par score of their links, the Executive Committee membership be raised from three to four In accord with the suggestion President Russell appointed as the Handicap Committee yesterday Lionel H. Graham, chairman, Baltusrol Golf Club: Devereaux Emmett, Garden City Golf Club; F. W. Menzies, Seabright Golf Club, and Louis P. Bayard, Jr., Baltusrol Golf Club. Mr. Graham, as president of the New Jersey State association, has had experience in compiling its general handicap, and he is the originator of table that has been adopted by the M. G. A A circular will be sent to each club M. G. A. containing the general par table,

Distance up to 200 yards, par 3; 201 to 250 yards, par 3; 251 to 375 yards, par 4; 276 to 425 yards, par 4; 26 to 510 yards, par 5; 511 to 600 yards, par 515; 601 to 650 yards, par 6. par 5½; 601 to 650 yards, par 6.

The handicap committee, or whoever does the work at the different clubs, must work out the par score of the course on this official rating and adjust the members handicaps accordingly for the general list. It is not intended that the club bogey or other handicap system shall be changed for club events, the Par System being only intended to enable the par system being only intended to enable the committee to prepare the general handi-cap on the standard basis.

Nervousness and Its Train of Terrible Evils Permanently Banished By

PAINE'S CELERY COMPOUND.

Mrs. Clark Tells of Her Happy Rescue From Suffering After Failures of Physicians.

Nervous disorders and diseases are on the increase, and women are the chief sufferers. Digestion gives out, there are pains in the head, the tongue is coated, the muscles ache, there is constipation, heart palpitation, gloomy fears oppress continually, and sleep is broken and disturbed.

The only reliable remedy that medical science has given to humanity for the cure of nervousness, is Paine's Celery Compound, prescribed by eminent physicians with the happiest results. In critical cases, Paine's Celery Compound has saved life and restored health when all other medicines failed. Mrs. F. A. Clark, of Moscow, Idaho, writes as follows about her success with Paine's Celery Compound:—

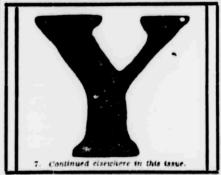

as follows about her success with Paine's Celery Compound:—

"While suffering terribly from nervousness and nervous prostration, I was attended by several physicians, but their efforts brought no assuring results. I finally got so bad that it was impossible to sleep at night. My husband again wanted me to have a doctor, but I told him it was no use. He then went to our druggist who recommended Paine's Celery Compound. The first night I used the Compound, I slept well and I continued to improve from day to day. I used in all eight bottles of Paine's Celery Compound and am perfectly cured. I cannot say enough in its favor."
